

Invasive breast cancer treatment is not “one size fits all.” You should take an active role in learning as much as possible about your breast cancer diagnosis and your available treatment options before making a decision about what is best for you. Over 1 million patients have used an Oncotype DX[®] test, the **only** test that has been proven to predict the benefit of chemotherapy.

Q: Am I a candidate for the Oncotype DX Breast Recurrence Score[®] test?

A:

Q: I don't have a family history of cancer. Why do I need a genomic test?

A:

Q: Can you explain the testing procedure? Is the test invasive? Will I need another biopsy?

A:

Q: Should chemotherapy be part of my treatment?

A:

Q: How likely is it that my cancer will come back?

A:
